EXPERIENCE

Web Development Track Coach   **July 6 2016 - July 21 2016**
NJIT RWC Cybersecurity Camp, Newark NJ

- Instructed a classroom of 11 students on basic web development using HTML and CSS.
- Introduced the concept of responsive web design and had students apply it through the CSS framework Foundation 6.
- Collaborated with students to create a responsive website meant to raise awareness of cybersecurity as the main project.
- Guided the track to win 2nd place in the RWC Cybersecurity Camp award ceremony.

Front-End Web Developer   **July 2015 – Sept 2015**
GAL INC. , Fair Lawn NJ

- Developed a solution for integrating Google reviews and Blogger posts on several client websites through use of Google Places API.
- Responsible for building a client's website with a given design.
- Tasked with updating multiple clients' website content such as fixing responsive design issues, written content, images, and creating new pages
